

Next Generation Leadership

Collaborate. Create. Challenge.

ABOUT US

Effective professional development should challenge thinking through thought provoking learning conversations in order to bring about a change in practice and therefore student outcomes. Working collaboratively to enhance the professional development of our local partnership is a priority within the Trust. We want teachers to gain a better understanding of what great teaching looks like from Initial Teacher Training, to Early Career Teacher through to Senior Leadership.

THE PROGRAMME

Next Generation Leadership offers experienced senior leaders the opportunity to focus on the further development of leadership behaviours and qualities which support school improvement and leadership progression. Participants will engage in coaching sessions to open up perspectives and possibilities on leadership.

- a launch day outlining the vision and key content of the programme
- structured self-review of leadership behaviours and qualities
- a Leadership Enquiry
- individual coaching sessions with experienced leaders
- opportunity to hear several headteachers' stories
- collaboration with peers

TESTIMONIALS

"The Next Generation Leadership course helps to give dedicated time to reflect on your own practice, think more strategically and be coached into crystallising the key priorities for you as an individual and how it can be linked back to the school development plan."

"Benefiting from the expertise of experienced leaders and excellent coaches."

"An excellent opportunity to reflect on your leadership behaviours and style to date and to consider how you can move your influence and leadership forward."
